When I get dinner ready, if it's something he likes, he's always expectantly waiting on my chair. If I shoo him, he'll move to my mom's chair...He's a champion glutton, this cat.

Afterword

I promise to put more "extras" in the next volume. In fact, I've already decided what I'm going to do! I don't want to spoil the surprise, though, so it's a secret for now. You won't have to wait too long to find out what it is...I'm really into accessories, so I want to put them on Suzuna and the others, too...but compared to clothes, for example, accessories are small! And detailed!! I can't draw that...
